THE ROLE: DIRECTOR OF PARKS AND RECREATION

The Director of Parks and Recreation will plan, direct, manage and oversee the activities and operations of the Parks and Recreation Department, including aquatics, recreation, senior programming, facility rentals, and active transportation. They will manage the development and implementation of related City-wide objectives, establish appropriate Department service and staffing levels, evaluate the efficiency of service delivery methods, oversee the administration of the Department budget, evaluate work methods and procedures, seek grant funding opportunities/write grant applications, and meet regularly with management staff to identify and resolve problems.

In addition to the traditional duties, the new Director will have the opportunity to develop and implement long-term plans for the Newell Open Space, Clark Ranch/Wetlands Eco-Center, and the Vine Trail & Bay Trail. The Director will lead a small, but dedicated staff of 7.0 FTE that relies upon a harmonious mixture of part-time staff, active and supportive nonprofit groups, and volunteers to serve the community. The Director serves as a member of the City's Management Team and provides complex administrative support to the City Manager. In addition, the Director will provide support to other Departments in certain areas; for example, "park maintenance" is currently the responsibility of the Maintenance and Utility Department.

Newell Open Space

Abutting Lynch Canyon Open Space to the east, American Canyon's Newell Open Space encompasses 620 acres of land rising several hundred feet above Newell Creek with picturesque westerly views of the City and the northern San Francisco Bay. Over time, the City has added several trails, but with the Director's leadership, a more robust access and a maintenance strategy is anticipated.

Clark Ranch is an undeveloped city-owned property at the northwestern edge of town. The 2016 Clark Ranch Master Plan calls for a "new regional nature/ environmental/ community center (the "Eco-Center") to be "an indoor interpretative, recreation and community space with classrooms and multi-purpose rooms to support programming and exhibits (watershed protection/education, wetlands habitat/biology). Possible space for vendor sales (deli/gifts) and rentals (bike/kayak)."
