This structure allows staff to focus more on strategic leadership and community-building.

Beyond City Hall, Cudahy offers a dynamic blend of urban convenience and neighborhood charm. Residents and visitors alike enjoy more than 20 acres of parkland, including the beloved Clara Street Park and Lugo Park, which serve as hubs for recreation, fitness and family-friendly events. Year-round community celebrations, from cultural festivals to movie nights in the park, bring people together and reflect the rich diversity and spirit of the City.

The Finance Department

The Finance Department plays a central role in supporting the City's daily operations and long-term vision. Beyond managing the City's financial resources and providing strategic insight, the department oversees critical functions including business licensing, purchasing and information technology. Our team works behind the scenes to ensure public funds are used effectively, services run smoothly and technology supports both staff and community needs. Ultimately, the Finance Department exists to strengthen the City's financial foundation and provide the strategic guidance necessary to meet the evolving needs of Cudahy.

As Cudahy continues to grow and evolve, the next Finance Director will play a key role in shaping the City's financial future through several potential projects:

Review Business License Structure

We'd like to undertake a comprehensive review of the City's business license program to modernize its structure, improve fairness and compliance and ensure alignment with today's economic landscape.

Capital Improvement Program (CIP) Collaboration

The Finance team partners with Public Works to support the development and prioritization of the City's Capital Improvement Plan, ensuring financial resources align with infrastructure needs and investment timelines.

Diversifying Revenue Sources

We're developing strategies to expand and stabilize the City's revenue base, including exploring grants, economic development partnerships and innovative funding opportunities.

ERP System Training and Optimization

With the implementation of the City's ERP system (Tyler Pro), we've identified a need for improved staff training and system understanding. The Finance Director should prioritize a comprehensive training plan and ongoing support to ensure the system is fully utilized, enhancing efficiency, accuracy and interdepartmental coordination.

Community Outreach on Revenue Diversification

As we explore critical funding options like parcel taxes, advancing community outreach and education on revenue diversification would be ideal to sustain and enhance the quality of life in Cudahy. We lead transparent and inclusive public outreach efforts that educate residents, build trust and foster community support.
